

Lameroo Preschool Philosophy

Vision

Lameroo Preschool is a place where all children will feel safe, secure and supported to explore, discover and grow through play.

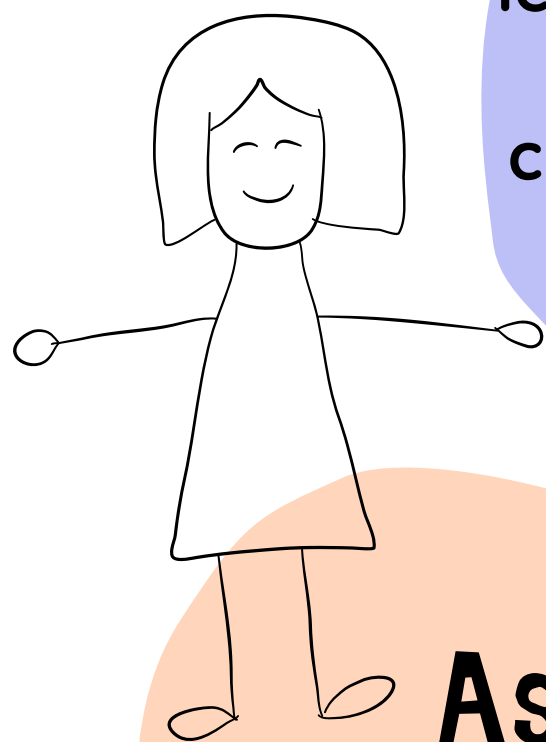

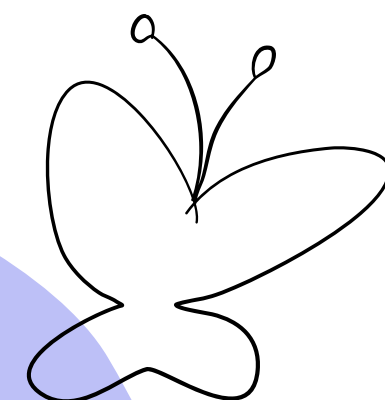

We believe:

All children are capable, confident and unique and will be valued for who they are.

All children will co-construct the learning so they can explore, discover and grow.

All children learn best when educators, parents, families and the cultures of our community work together in partnership.

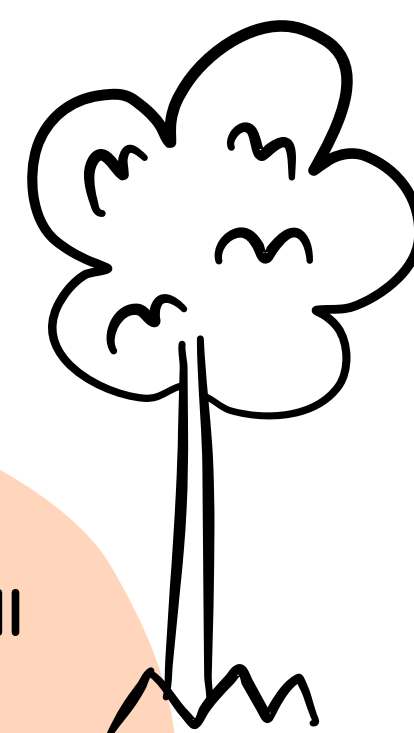

All children learn best through an active play based learning environment that promotes enthusiasm, inquiry, confidence, problem solving, creativity, curiosity, imagination, persistence and collaboration.

As Educators:

We will provide and promote a safe, secure, joyful and playful active learning environment where children are inspired.

We will work in partnership with all children to develop and grow their strengths, skills, knowledge, interests and needs.

We will build strong connected relationships through authentic communication and shared decision making.

We will respect and celebrate the uniqueness of each family and child.
